

## Job Description

Job Title:	Purge Welder
Department:	Welding
Reporting to:	Fabrication & Welding Manager

### Who are we?

Fullwood Packo Dairy Group design, manufacture and distribute state of the art milking equipment worldwide and for over 85 years have been recognised as being at the forefront of milking technology. Operating primarily out of Europe with the operations based in the United Kingdom (Ellesmere, Shropshire). We have a strong European customer base and are now looking for a Purge Welder to help support our production department.

### Key Duties

- Reads and interprets engineering and machine drawings to determine specific welding requirements.
- Connects cables from welding unit to obtain amperage, voltage, slope, and pulse, as specified by engineering.
- Welds in flat, horizontal, vertical or overhead positions.
- Examines weld for bead size and other specifications.
- Positions and clamps workpieces together or assemble them in jig or fixtures.
- Selects torch, torch tip, filler rod and flux, according to welding chart specifications or type and thickness of material.
- Tacks assemblies together.
- Maintains welding set within area
- Maintaining the general organization and tidiness of the work area
- Ability to read and interpret documents furnished in written, oral, diagram or schedule form such as safety rules, operating and maintenance instructions, quality manuals and procedure manuals.
- Ability to perform simple shop math, convert decimals to fractional equivalents
- Must be able to identify and measure material.
- Ensure work is done safely and meets quality standards.
- Provide a great level of attention to detail and focus on the given task.
- Work with team members to maximize productivity and efficiency
- Understand and apply welding techniques; work quickly and skilfully with the hands; accept responsibility for the work performed; visualise what the finished product should look like; operate welding equipment with skill.
- Capable of Purge Welding
- Capable of freehand welding work
- Capable of performing fabrication work and skills as required

## Personal Traits & Skills

- High Performance attitude & drive; not wanting to be average in terms of personal development and achieving business results
- Energy & focus to achieve results in a professional manner
- Self-starter; able to work independently, but as part of the team
- Creative & inquisitive; out of the box thinker
- Consulting & service attitude; a humble, but resolute behavior
- Equipped with strong and effective communication and interpersonal skills
- Intrinsically motivated; eager to learn
- Analytical; you can think strategically, and you can handle complexity
- Assertive; not afraid to ask questions
- Capable of working with deadlines while ensuring high quality of results delivered
- Representative, eye for detail, able to make things happen.

## Education and Experience

### *Essential*

- Experience in Welding
- Be able to spot defects on work; close visual inspection required
- Be familiar with H&S requirements specific to Welding and Fabrication

### *Desirable*

- Ability to read and interpret blue prints
