DOUBLE 12 FULLWOOD CAMEL PARLOUR

Fullwood Camel Milking Systems

Fullwood Limited has been involved in the development and manufacture of camel milking equipment for over 10 years and is now the leader in this field.

Our journey began in 2005 whilst undertaking the first commercial camel milking project in the UAE. Since this time we have continued to develop our product and this allows us to provide a range of solutions from simple mobile milking units to full milking parlours with the most up to date technology available.

Fullwood Limited is committed to the success of its clients and the camel milking industry; we are your total solution provider no matter the size of your project.
